

## **BUCKEYE VOLUME INCENTIVE PROGRAM TO THE NEW YORK CITY AIRPORTS**

Buckeye Pipe Line Company, L.P. (“Buckeye”) is now offering a Volume Incentive Program (the “Program”) for qualifying Aviation Turbine Fuel volumes that originate at Linden, New Jersey and are delivered to LaGuardia Airport, Newark International Airport, and/or John F. Kennedy International Airport. The Volume Incentive Program rates are available to all Aviation Turbine Fuel Consumers (as that term is defined in the Volume Incentive Program Agreement) that meet the Program requirements and execute a Volume Incentive Program Agreement with Buckeye during the sign-up period commencing on October 1, 2015 and concluding on December 30, 2015.

Under the Program, a qualifying Program participant must commit to ship or have shipped on its behalf a minimum of 3,300,000 Barrels of Aviation Turbine Fuel each year in total to the destinations listed above, or pay to Buckeye a deficiency payment. Details of the Program are set forth in the Volume Incentive Program Agreement, which is available for review upon request to Buckeye during the sign-up period. All inquiries regarding the Program should be directed to Steven Trapani, at the address shown below.
